O pening Ceremony

The official opening ceremony of the “Future Monodzukuri International EXPO 2024”, supported by the Japan Association for the 2025 World Exposition, will include prominent government officials, local authorities, and business leaders. Representatives from GISHW will also join the ribbon-cutting ceremony.

Note: “Monodzukuri” refers to the Japanese concept of craftsmanship and manufacturing excellence, emphasizing quality, skill, and continuous improvement.

P ress Conference

Representatives from various international organizations gather with major global media outlets as The Global Initiative for Safety, Health and Well-being (GISHW) announces in a press conference that “Safety, Health, and Well-being” has been adopted as a significant theme for the first time in Expo history. GISHW will host a series of events aligned with this theme.

E xecutive Committee Meeting

Following the first Executive Committee meeting in Sydney, a second meeting will be held in Osaka in November. Safety leaders from around the world will gather to discuss, finalize, and present GISHW’s various programs at EXPO 2025, aimed at improving the safety, health, and well-being of 8 billion citizens worldwide.

F orum / Symposium

Experts from around the world will come together to share insights into occupational safety and well-being innovations and technologies. Attend fascinating presentations and engaging discussions on the latest advancements and best practices in workplace safety and health. Don't miss this unique opportunity to learn from the best experts and enhance your knowledge and skills in this vital field. We look forward to seeing you there!

W ell-being Tech Exhibition

Discover cutting-edge advancements in Core Manufacturing Technology, Robot/Robot Related Technology, Advanced Technology, Water and Fine Bubble Technology/ Environmental Technology, Factory Construction/Factory Disaster Prevention, and Well-being Tech. This expo features groundbreaking innovations shaping the future of industry and workplace wellness. Network with global leaders and explore exhibits or become an exhibitor yourself. Join us in November and experience the latest technologies.

E XPO Construction Site Tour

Participants will be invited to tour the Expo 2025 construction site to see the state-of-the-art construction methods being used, observe construction technology, and see the facilities under construction.. **【TBD】**
