- ✓ High-level Summit
- ✓ International Symposium
- ✓ World Assembly

✓ EXHIBITION

- ✓ ILO Youth Congress
- ✓ Festival
- ✓ International Standardization Forum

WHY

Join JIOSH+W 2025

As part of the Days on Safety, Health, and Well-being at Work program for World Expo 2025, we proudly present the JIOSH+W 2025 — a groundbreaking exhibition devoted to advancing safety, health, and well-being in work environments. In line with Expo 2025's theme of "Designing Future Society for Our Lives," our mission is to create a brighter future for all, ensuring no one is left behind, by transforming workplaces for the better.

This innovative JIOSH+W 2025 exhibition will showcase state-of-the-art solutions that enhance protection against occupational risks and promote health and well-being at work. Cutting-edge technologies, sustainable solutions, and approaches—including international standardization activities—emphasize that work is a universal bond, sustaining livelihoods and enriching lives.

Our aim is to drive the digital transformation of workplace safety and prevention, leveraging AI to support all aspects of OSH management, risk prevention, and health promotion. By promoting a culture of healthy, sustainable business, we aim to create a positive impact on communities and societies worldwide.

JIOSH+W 2025 is an annual event, continuing beyond 2025 to champion safety, health, and well-being in workplaces everywhere.

WHEN

JIOSH+W 2025 will be held on July 16 to 19, 2025, concurrently with five other programs of the Safety, Health and Well-being Days by GISHW. This event is a part of EXPO2025 Osaka, Kansai (April 13 to October 13, 2025).

WHERE

JIOSH+W 2025 will be held within the 60,000-square-meter space designated for the Future Monodzukuri International 2025 event at INTEX Osaka. This premier convention and exhibition facility, established in 1985, is among the largest in Japan. Located just 5 km from the EXPO2025 venue in Yumeshima, INTEX Osaka offers easy access with excellent transportation links.

Osaka, one of Japan's largest and most dynamic cities, is known for its robust economy and innovative spirit. A major hub for technology, manufacturing, and trade, the city plays a pivotal role in Japan's economic landscape. Seamlessly blending tradition with progress, Osaka fosters a forward-thinking environment that attracts both domestic and international business.

WHO

Over 40,000 visitors from around the world are expected to attend, representing industries such as manufacturing, construction, transportation, logistics, material handling, exoskeleton technology, rehabilitation products, as well as academia, government, policy makers, institutions, and R&D organizations. JIOSH+W 2025, part of the Days on Safety, Health, and Well-being at Work, program within EXPO2025, will feature at least 600 exhibitors from these same industries, showcasing their latest solutions, technologies, and products.

WHAT to innovate and inspire

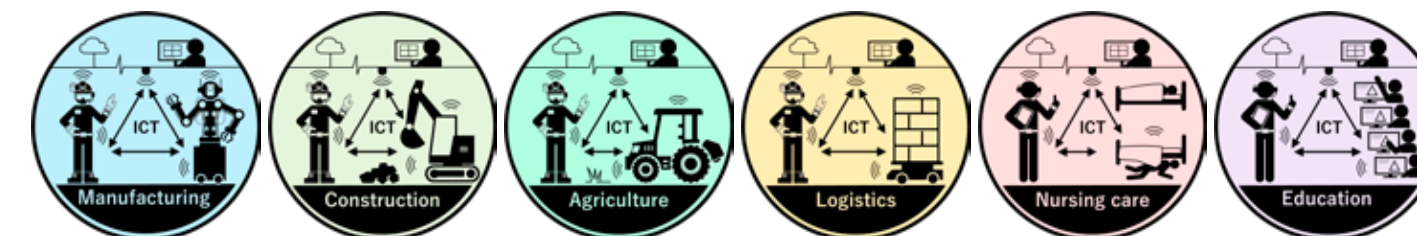

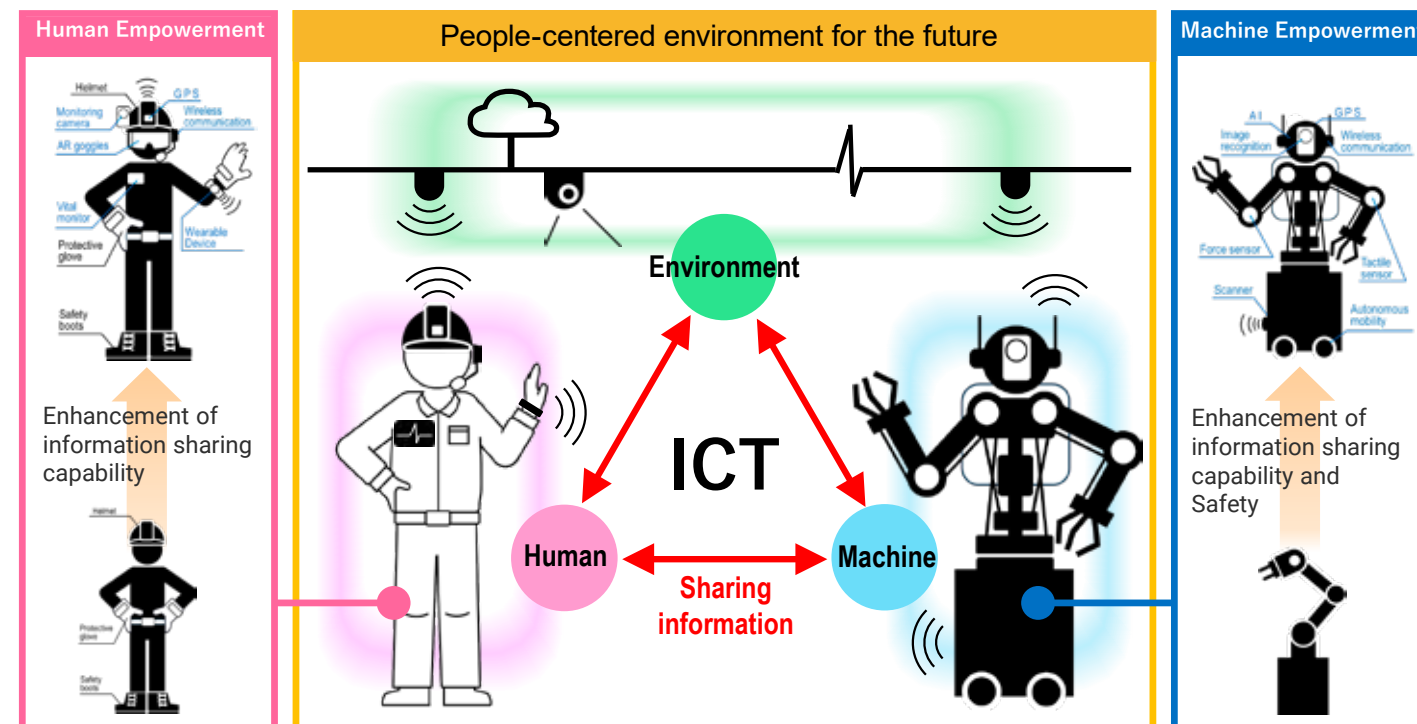

- AI
- AR (Augmented Reality)
- Cloud System
- Collaborative Safety
- Communication
- Construction
- Digital Transformation
- Digital Twin
- Drone
- Education & Training
- Enabling Device
- Exoskeleton
- Fine Bubble Technology
- Health Promotion
- Heat Stroke Prevention
- International Collaboration
- Management Approach
- Manufacturing
- Material Handling
- OSH Best Practices
- Positioning
- Risk Prevention
- Qualification
- Rehabilitation
- Robots
- Safety Technology
- Sensor
- Standardization
- Testing
- Vision Zero
- VR (Virtual Reality)
- Well-being Technology
- Wearable Device
- ... and more!!

Solutions

People, machines, and work environments empowered by technology

Collaborative Safety

A new approach called "Collaborative Safety," which aims to enhance both safety and productivity by integrating humans, machines, and the environment through ICT technology, is gaining significant attention. This concept was first introduced to the world in 2017 through IEC ACOS and has since been the subject of active discussions. In 2025, the year of the Osaka Expo, the international standard on collaborative safety, IEC Guide 127, is expected to be published. This guide will be issued as an international standard to ensure safety, health, and well-being in future working environments. The possibility of holding an international symposium session on the topic is being considered.

Join JIOSH+W

Developers & producers of state-of-the-art wellbeing technologies Technical Professionals
 AI, Robot, IOT, AMR, Production, Engineering

International Promoters
 ILO standards, WHO guidelines, EU Directives, International Standards (ISO, IEC)...

Safety, Health, Wellbeing Experts
 Sharing and inspiring others with their insightful expertise, engaging with a wide range of stakeholders.

Corporate Executives, Leaders, and Managers
 Boost employee engagement and productivity while Contributing to society

Concept - People's Living Lab -
 A laboratory for a future society

1. A space where 8 billion people from around the world will not only swap exhibits but will co-create our future reality.
2. Even before the Expo begins, an online platform for sharing challenges and solutions from around the world will be launched.
3. A place where the world's knowledge such as cutting-edge technology will be brought together, used to create new ideas, and shared, all to help realize global issues facing tomorrow.

All stakeholders –Developers and producers of state-of-the-art wellbeing technology such as digital/AI prevention tools, OSH experts, corporate executives, government policy makers – will join as exhibitors and visitors.

HOW

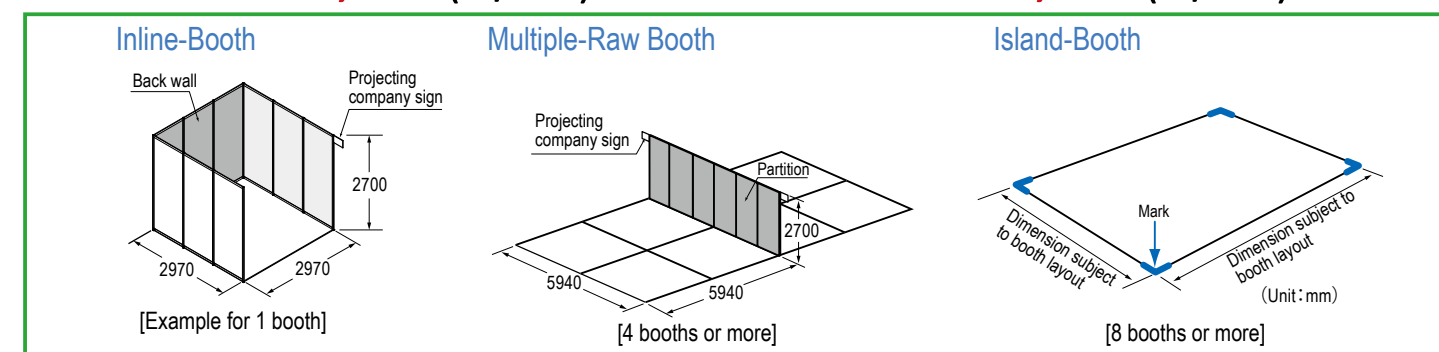

As an exhibitor, this is a unique opportunity to showcase your commitment to critical values while gaining visibility among a global audience dedicated to advancing safety, health, and well-being. Exhibitors are also eligible for an exclusive 30% discount on participation in a range of prestigious events, including the High-Level Summit, International Symposium, World Assembly, ILO Youth Congress, Festival, and International Standardization Forum, offering invaluable networking and knowledge-sharing opportunities. For details about exhibition booths or to secure your spot, please refer to the contact information on the next page. We look forward to collaborating with you to make this event an outstanding success!

Booth Rental Fee

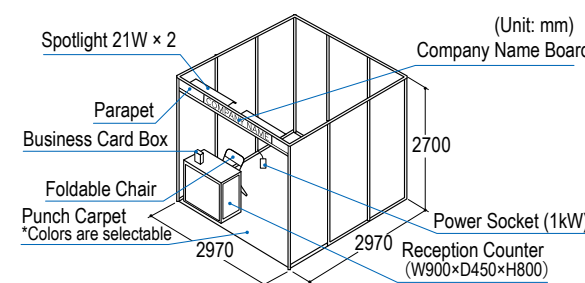

1 Raw Booth = 2.97W × 2.97D × 2.7H m

GISHW participants
